

Anti-Mpp-10 autoantibodies

Indications	▶ At the moment no clinical indication.
see	▶ <u>ANA</u> (antinuclear autoantibodies)
Antigens	Mpp 10 constitutes an U3 snoRNP specific protein of the nucleolus.
Prevalence	Anti-Mpp 10-autoantibodies were described in patients with systemic sclerosis (SSC). In the majority of patients they were associated anti-fibrillarin-autoantibodies.
